**ORGANIZATION  
OF THE  
CITY GOVERNMENT FOR THE YEAR 1930**

---

The annual inauguration of the City Council took place at City Hall, Monday evening, January 6, 1930. Previous to the meeting of the City Council of 1930, a meeting of the Council of 1929 was held in the Council room with Mayor Sullivan presiding, and Councilmen Fowler, Prescott, Longfellow, Garneau, Lagace, Denoncour, Melandy, Leonard and Redman present. On motion of Councilman Fowler, Mayor Sullivan was authorized to procure the printing of the city reports for 1929. The canvass of the vote for Mayor at the November election was read by Miss Ruth L. Sawyer, city clerk pro-tem. Adjournment was then taken to the main hall.

The oath of office was administered to Mayor Dennis Edward Sullivan by Judge Thomas F. Clifford, Mayor Sullivan having been elected mayor of Franklin for a second term. Judge Clifford also administered the oath of office to Councilmen-elect George G. Fowler, Albert J. Garneau and Otis M. Davis. Councilmen Fowler and Garneau were re-elected. Councilman Davis succeeded Councilman Bland C. Redman.

Prayer was offered by Rev. John J. Brophy, pastor of St. Paul's Church.

Mayor Sullivan then delivered his inaugural address.

He spoke as follows:

Reverend Father, Members of the City Council and Ladies and Gentlemen:

I want to take this opportunity to thank the voters of the City of Franklin for the honor which they have conferred upon me by electing me as their Mayor for a second term, with the endorsement of both political parties. I do not intend tonight to make a lengthy review of the activities of the 1929 Council. I want to point out that last year's Council showed an excellent spirit of co-operating with me in keeping down the city's expenditures. The report will show that several of the city departments had unexpended balances at the end of the year. Notably amongst these departments is the Fire Department which had an unexpended balance of nearly \$900.00. I think that this showing reflects much credit upon the members of that department and I want to compliment them upon it. The school department also did not overdraw their appropriation and credit should be given the Board of Education and Superintendent of Schools for their excellent showing. Of course some of the departments were overdrawn, including Highway, Police and City Poor. The highway department has done a considerable amount of work this year and we have planned to show an unexpended balance in 1930 which will take care of the 1929 overdraft. You also must bear in mind that the highway appropriation for 1929 was \$3000 less than the 1928 appropriation. The Police department overran its appropriation about \$1200. In 1928 the department overdrew more than \$1900 and in view of this fact I think that this department is proceeding in the right direction. The city received a much smaller amount in Police Court fines than has been customary and this fact contributed substantially to the overdraft. The City Poor is a department where the

---

expenditures are rapidly increasing each year and some drastic action must be taken in order to eliminate this increase.

But taking all things into consideration, I think that you will find that the different departments are spending the city's money judiciously. The tax rate was not increased in 1929 and I trust that it will not be necessary to increase it this year as I know of no large expenditures contemplated by this year's council. The largest expenditure which the 1929 council made excepting those made for the ordinary running expenses of the city, was an expenditure of \$800 for the installation of new tubes for the boilers in the heating plant. This was absolutely necessary in view of the fact that the old tubes were completely worn out and the inspector for the insurance company refused to approve the boilers until the new tubes were installed.

When you pick up the 1929 City Report you will notice that the city debt has been substantially increased. This is due to the \$40,000 bond issue which was necessary to pay for the Hill road construction and for the new Kenrick underpass. Now both of these projects were voted by previous councils, all the 1929 council had to do was to get the money to pay for them. I sometimes wonder whether or not this \$40,000 could not have been better utilized in applying it towards a new high school building which the city sadly needs. I am a firm believer in the advantages derived from good roads, but on the other hand I believe that the majority of the citizens of Franklin derive more advantage from good schools rather than from good roads.

As for the year of 1930, I haven't very much to say. I know that it has been customary for the mayors in the past to stand up here and tell you what they are going to do and what they are not going to do. Now I know

from experience that it is not always possible to carry out these statements and I also know that the citizens of Franklin prefer action rather than words, and I am for that reason going to let our actions in 1930 speak for themselves, ever bearing it in mind that I will try to continue that same same policy of economy which I advocated in 1929.

## CITY GOVERNMENT

---

### CITY COUNCIL

---

### Mayor

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

DENNIS EDWARD SULLIVAN

---

### Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term Expires.
Ward 1—FRANK D. PRESCOTT	January 5, 1931
GARDNER C. LONGFELLOW	January 4, 1932
GEORGE G. FOWLER	January 2, 1933
Ward 2 ANTONIO J. DENONCOUR	January 5, 1931
ALPHONSE LAGACE	January 4, 1932
ALBERT J. GARNEAU	January 2, 1933
Ward 3—ARTHUR B. LEONARD	January 5, 1931
ERNEST C. MELENDY	January 4, 1932
OTIS M. DAVIS	January 2, 1933

---

## **HIGHWAY DEPARTMENT**

---

### **HIGHWAY COMMISSIONER'S REPORT**

To the Mayor and City Council of Franklin:

I herewith submit the annual report of the Highway Department for the year 1930.

During the year 1930 the garage was covered with a slate surface shingle.

The equipment is in good condition, although some of it is a little out of date.

#### **Bridges**

A new bridge was built across Sucker Brook on the old road to take the place of one that was getting rotten. Other bridges were repaired.

#### **Trunk Line Report**

The Daniel Webster Highway was kept in repair by patching.

The Mascoma Road was treated with sand and tar and dragged with the horse. Cable rail has been put up at all dangerous places.

#### **State Aid Report**

The Salisbury Road was treated with sand and tar; 3700 feet was regraded and rolled and treated with sand and tar.

#### **State Aid Construction**

The road from the Birthplace turn toward Salisbury has had considerable work done on it. Eleven culverts have been put in with concrete headers. The sub-grade has been put in, and a good share of the gravel put on. A seven foot culvert was put in at Punch Brook near the Birthplace.

### Sewer Report

All sewers were flushed. A new sewer was laid on Charles Street, 427 feet with two man-holes.

### New Gravel Streets Built in 1930

Fifteen hundred feet of gravel road was built on the west side of Webster Lake, 200 feet of gravel road was built on Forrest Street, 300 feet built on Winnipiseogee street, 7920 feet built on Kelley road.

Central street from West Bow street, to the Republican bridge was treated with two applications of sand and tar. Also Central from Sanborn Hill to the residence of Hector Dion was treated in the same manner. Cross road, Lancaster, Monroe, Pearl, Chestnut, Clark, Kendall, Dearborn, Sanborn, Prospect, Elm, Highland, Myrtle, Pleasant, Stone, Poplar, View, School, Railroad, Franklin, Winnipiseogee, Grove, Edmunds, Salisbury, Webster, Thompson, Glenwood, Streets and the Shannon Road, Dole Road, Lake Road on the east side were all treated with one application of sand and tar.

Cable gutters were built on East High and Central Streets.

All country roads were worked with machine and put in good condition, culverts were cleaned and railings were put up where needed. Brush was cut and a number of large stones were blown out.

In closing, I wish to thank the Mayor and the Highway Committee for their cooperation and advice.

NED BUNTON, Commissioner.

## Equipment of Highway Department

1	Macar Truck	\$500 00
1	Maek Truck	2,000 00
1	Reo Truck	100 00
3	Chevrolet Trucks	900 00

## FIRE DEPARTMENT

---

### ENGINEERS' REPORT

The following report from December 31, 1929 to December 31, 1930 is submitted: The manual force consists of Chief Harry E. Colby and two assistants, John E. Cunningham and Leslie N. Boomhower. The combination chemical and pumper, 15 men, Edward Wheeler, captain. The City Service Hook and Ladder Company, No. 1, 15 men, Albert Garneau, captain. Hose Company, No. 1, South Main Street, 10 men, Alwin Dean, captain.

#### Location of Apparatus

##### Hose Company, No. 1, South Main Street

One Auto Hose Truck, 500 feet hose.  
One 12-foot roof ladder.  
One 25-foot extension ladder.  
One 30-foot ladder.  
500 feet  $2\frac{1}{2}$  inch hose, extra.

#### Central Fire Station

One American LaFrance Triple Combination Truck, one Reo Truck, one Mack City Service Hook and Ladder Truck. There is at the Central Fire Station 2,700 feet of  $2\frac{1}{2}$  inch hose in good condition.

#### Hose 3, Central Street, Opposite Paper Mill B

One hand reel with pipes, wrenches, spanners and 400 feet of  $2\frac{1}{2}$  inch hose.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping, are in the following places: City Hall four, Franklin passenger station one.

We have on Hose No. 1, 500 feet of hose.

We have on the American LaFrance Triple Combination Truck, 1000 feet of hose.

We have on the Mack City Service Hook and Ladder Truck, 500 feet of hose. Also a cellar pump.

We have 2700 feet of extra hose, but only 1000 feet in good condition.

#### Recommendations

We recommend the purchase of new fire hose and fire alarm boxes.

HARRY E. COLBY, Chief,

JOHN E. CUNNINGHAM, Ass't. and Clerk,

LESLIE BOOMHOWER, Ass't.,

Board of Engineers.

## Regulations of the Franklin Fire Department

Adopted December 20, 1909.

Section 1. The fire department of the City of Franklin shall be composed of a chief engineer, first assistant engineer, second assistant engineer, and a superintendent of fire alarms, who shall each be appointed by the city council; combination chemical and pumper company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.

Section 2. The chief engineer and two assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.

Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes his oath of office.

Section 4. The City Council, for cause, after hearing, may remove from office the chief engineer or any assistant engineer.

### Chief Engineer

Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.

Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.

Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.

Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have power to perform the duties of the chief engineer.

### Board of Engineers

Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.

Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.

Article 2. They may from time to time make and enforce such regulations for the government of the department as they deem proper.

Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.

(a) Penalties not exceeding ten dollars for each offense may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.

Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers, shall become a member of the company.

Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by a majority vote, a clerk of the board of engineers, a captain, a lieutenant and a clerk for each company, each of whom shall hold office until his successor is elected.

Article 6. Any number of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.

Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere to be extinguished or removed.

#### **Superintendent of Fire Alarm**

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm, who shall be elected by the Council.

#### **Committee on Fire Department**

Section 8. Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted December 5 and 19, 1910.

Amended May 20, 1918.

1. That the salary of the chief engineer be \$150 a year and 75 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.
2. That the number of assistant engineers shall be two, and that the salaries of each shall be \$50 per year and 75 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of assistant engineer at a proportionate salary.
3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.
4. That the members of the various companies shall each receive a salary of \$25 per year and 50 cents per hour for all services.

5. That the Superintendent of Fire Alarm shall attend to all repairs on the fire alarm system.

Under this head it is understood that he shall at all times keep the line clear of trees and branches and other obstructions and shall not receive extra pay except for manual labor; that he shall attend to the winding of all clocks and see that the house man at the Central Fire Station takes proper care of the storage batteries and switch board; and he shall see to the procuring of supplies for the whole system through the purchasing agent, with the approval of the chief engineer and fire department committee.

**New Schedule Effective April 1, 1929.**

Chief Engineer, salary of \$250 per year for all services in the City of Franklin. If called out of the City the engineer shall receive 75 cents per hour, if the City receives pay for same.

Assistant Engineers, flat salary of \$150 per year.

Captains of Companies, salary \$75 per year each, and 50 cents per hour for all services.

Members of the several companies, salary \$50 per year, and 50 cents per hour for all services.

Clerks of Companies, salary of \$10 per year each.

Janitor of Hose Company, No. 1, salary \$20 per year.

## BOARD OF HEALTH

The Board of Health respectfully submits the following report for 1930:

Contagious diseases reported for which disinfecting was necessary, tuberculosis 2, scarlet fever 12, diphtheria 3. No deaths from these cases. The total number of deaths for the entire year was 94. The number of bodies brought here from other places was 39. All school children not having had Toxin-Antitoxin were inoculated to prevent diphtheria. The dairies of the milk men have been inspected with a man from the State Board of Health with the idea of getting the best milk possible for Franklin. In concluding this report we wish to thank the Honorable Mayor and Councilmen for their hearty support given us in the performance of our duties.

W. E. SMITH, M. D.,

GEORGE S. FRENCH,

W. S. STEWART,

Board of Health.

**ODELL MEMORIAL ARCH FUND**

Vote passed April 7, 1913

That, the City of Franklin hereby accepts the sum of two thousand dollars given to said city, March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund," and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four percent interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park.

It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved.

W. W. EDWARDS, Mayor.

**Report of the Condition of Trust Funds Held by the  
Franklin Cemetery Association.**

Revised public laws of the State of New Hampshire, 1926, Chapter 56, Page 229.

Section 11. Cemetery corporations and the trustees of towns, or other officers having lawful charge of cemeteries, may take and hold funds in trust, to apply the income thereof to the improvement, watering or embellishment of the cemetery, or to the care, preservation or embellishment of any lot or its appurtenances.

In accordance with the above section, the Franklin Cemetery Association at the annual meeting held May 2, 1925, appointed a Finance Committee of three members "whose duties shall be to receive, hold and invest funds, and supervise expenditure thereof, which may be given to the Association in trust, the income of which shall be expended for care of lots or the general improvement of the cemetery."

### MARY J. COLBY FUND

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

*Resolved by the City Council of the City of Franklin as follows:*

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund;

*Be it Resolved*, That the City of Franklin, N. H. in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., \*(and the sum of twenty-five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H.), to be known as the Mary J. Colby Fund, and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved, W. W. EDWARDS, Mayor.

Passed September 8, 1913.

\*Enclosed clause repealed February 6, 1922.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

February 6, 1922. Amended by authorizing the Trustee of Trust Funds to withdraw said money and invest same in the Bonds of the City of Franklin.

## LIBRARIAN'S REPORT

To the Trustees of the Franklin Public Library:

It is not often that a Public Library has a book especially written for the use of its patrons, but such is the case of the Franklin Public Library.

The need for a history to explain the presence of Indian relics in this region led Miss Mary A. Proctor, one of the trustees, to collate the material collected by her father and brother into a connected narrative. Written primarily for school children, it grew in the writing far beyond that scope, and people connected with Franklin have read the book with interest and appreciation.

The author has presented twenty-five copies to the Library, hoping to further the cause of regional history, considered so necessary in the education of the young.

In times of industrial depression the usefulness of the Public Library is more apparent than at any other time. It is our custom to count the book-slips on January 1st of each year to learn how many books are actually in the homes of the people. On New Year's Day 3,325 books were in circulation. It is safe to say that over a thousand persons were sharing the library collection on that day. The circulation for December, 1930, was 6,563 volumes, almost a book per person for Franklin, the last census giving us a population of 6,576.

Statistics for the year 1930 are as follows:

Books added by purchase during the year....	656
Books added by gift.....	76
Added .....	732
Replacements of worn out books and picture books are not included.	
Number of newspapers currently received...	8
Number of magazines currently received....	60
Number of volumes of non-fiction lent, adult	7,444
Number of non-fiction lent, juvenile.....	3,177
Number of volumes in French.....	820
Number of volumes of fiction lent, adult....	37,601
Number of volumes of fiction lent, juvenile..	14,567
Number of bound volumes of magazines lent	98
Total circulation .. .....	63,708

Respectfully submitted,

MRS. BARRON SHIRLEY,  
Librarian.

### RATES

All customers are supplied through meters. The minimum charge is seven dollars and fifty cents per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is  $37\frac{1}{2}$  cents per 100 feet; for the excess over 1,000 feet used each quarter 25 cents per 100 is charged. Upon all quarterly bills exceeding \$12.50 a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinker service.

GEORGE S. FRENCH,  
EDMUND J. GARNEAU,  
DAVID T. ATWOOD,  
GEORGE D. MOWE,  
DOCITE J. ROUSSEAU,

Commissioners.

Treasurer.

## **BOARD OF EDUCATION**

---

To the City Council of the City of Franklin:

The Board of Education of the City of Franklin here-with submit the report of the Franklin School District for the year ending December 31, 1930, it being the 30th of the series of similar reports. The Board has continued its policy of completing the physical equipment of its buildings and grounds, the details of which are explained by Superintendent Libbey. The financial report shows the scrupulous care exercised by the Board and its executive officers, in that a balance is shown.

Respectfully submitted,

MARGUERITE T. CLIFFORD,

CHARLES E. DOUPHINETT,

DR. JAMES B. WOODMAN,

Board of Education.

## SUPERINTENDENT'S REPORT

To the School Board of Franklin:

The greatest economical assets of Franklin are its school children. The kind of education these children receive today should be a matter of concern to all citizens because upon it depends the quality of the community citizenship of tomorrow.

The reason that all citizens directly or indirectly support the schools by taxation, regardless of whether they have children in school or not, is because education is recognized today as a community welfare proposition and not merely as an individual benefit. This conception of education is entirely different than that of even forty years ago.

A National Education Association report of 1890 notes, "That high schools were for an intellectually and socially elite student-body", whereas high schools today are for the benefit of all the people.

The committee of ten of the National Education Association in 1892 ruled that the curriculum for those who were capable of attending the secondary school should be such as would fit them for college entrance. There were then 4,158 secondary schools in the United States compared with more than 20,000 today.

The curriculum of the secondary schools in 1892 was practically designed for the few who expected to attend college. The recognized function of secondary schools today is to provide training for the ninety percent who possibly cannot go to college so that they may develop their individualities to the utmost. With this change of purpose in secondary education there resulted changes in curricula, offering not only subject matter fitting for college entrance but courses fitting for vocations and tending to give a broader outlook upon life. No educational problem has ever been more difficult, none has received more attention from educational leaders in this nation in the past seven years than that of devising and adjusting a curriculum that shall open pathways over which all children, some one way, others another, may successfully advance to educational achievement at

least to the limit of their possibilities. This attempt has brought to the front the recognition of individual differences in children, boys and girls who vary greatly in their knowledge, in their power to understand precise thinking, in their capacity for growth in power of appreciation and in their ability to do creative work.

This recognition of individual differences has in turn practically revolutionized class room procedure. Mass teaching in both elementary and secondary schools is fast giving way to individual teaching; individual characteristics are being studied by the teachers; individual abilities noted; civic and social attitudes observed; special interests analyzed; retarding and discouraging agencies discovered, etc.; all for the individual good and for discovering what kind of instruction different types of children should receive; in other words the schools are providing both educational and vocational guidance.

As a basis for this the curricula of the school must afford enlarged possibilities of choice and be varied enough so that the individual's powers and latent possibilities may be best developed. The idea that all children should respond to the same kind of instruction; that all can be equally interested in the same subject; that all have equal abilities; that all can be developed along the same lines; is an idea fast becoming obsolete. In its place is fast developing the idea of recognizing individual differences in abilities, in interests, in desires, in attitudes and in characteristics. Upon school officials rests the responsibility of providing for these differences in the school activity program, school curriculum and mode of administration. It is a great responsibility and requires sound thinking, wise planning and intelligent execution, not only in the larger educational centers, but in Franklin.

The "new school" is a "child centered school". Everything about it savors of the individual—individual activities, individual initiative, individual planning, individual creative skill, individual interests and individual accomplishments and advancement. Mass education is unsuited to the times in which we live. Mass education from a dollar and cent standpoint is less expensive than the individual type of education, but not as efficient; mass education tends to instill in the pupil the fixed thinking of the day, not individual

independent thinking; mass education is a machine education cutting all from the same pattern; mass education is not good for either the brightest pupils of a class nor the dullest; the one is discouraged, the other restrained and stunted in mental growth. Superintendent Givens of Oakland, California, in an address before the N. E. A. at Columbus last July said: "Progressive educators believe that what we want in our nation we must put into our schools. They believe in freedom rather than restraint, pupil initiative rather than teacher domination, activity rather than passivity, child interest rather than teacher demands, creative self-expression and experience rather than conformity and adjustment, cooperative living rather than autocratic control. They believe that education is a drawing out process rather than a pouring in process."

Such in a few words is the picture of the "new idea school" a happy workshop, full of opportunities for various activities both for the mind and hand. The teacher inquires and guides but does not order nor direct. The environment is beautiful and alluring. Pupils are promoted when they have mastered their self-directed tasks. Teachers are not rewarded because of the number of failures to their credit but because of the number of individuals they have inspired to confidence and courage, to joyful labor, to creative accomplishment. Interest, curiosity, the natural desire to learn inherent in every child, the longing to be something different from his neighbor, the normal craving to know life and to conquer it have replaced the formal cramming of facts for alleged deferred needs, the insistence on subject matter as the sum total of the educational process and the subscription to out-worn adult creeds.

Does Franklin have such schools? No, not in a perfected state; very few places have—but we are developing just this kind of school. The children in our schools are being given opportunity for initiative, for creative activity, for individual development for leadership growth, for better health through physical instruction and for pleasant happy environment. So far as possible we are considering the individual differences of children and providing for them. The financial factor enters largely into this matter of providing for individual differences. It means extra

teachers and more rooms. This year there has been provided an extra teacher to care for a group of 19 needing extra personal instruction. They are being taught in the music room and cafeteria. There are other groups in need but we have no other room.

The junior high school is continuing the activity work of the grades in all respects from a more advanced viewpoint, of course. The first two years of the curriculum is also affording the pupil an opportunity to "find" himself, to know just what courses of study he is most interested in and would probably be most successful in pursuing. This has proven of great value to the pupil advancing to high school courses. Individual differences are recognized but necessarily to a limited extent.

Traditional methods are more strongly entrenched in high schools here and everywhere and hence respond more slowly to the "new school" idea. Progress is being made however. More and more the idea that the individual not the mass should be the unit of instruction and center of attention is permeating our high schools and class recitations there, as in the grades, will soon be used largely as a means of true testing of individual work and teaching. Old traditions of teaching methods are gradually being eliminated in Franklin schools and the new school idea is already here in part and by the cooperation of school board, superintendent and teachers is being developed as rapidly as circumstances and finances permit.

---

### Athletics

The athletic teams, both boys and girls, have been very successful this past year. The girls had a strong hockey team and the boys teams in both basketball and football were the best the school had had.

The interesting thing in connection with the school athletic activities is the increased number taking part in them and receiving benefits from them. Coach Bridey furnishes the following data, showing the number of different boys taking part in the various sports, as well as the total number in all sports.

Boys actively engaged in athletics in F. H. S. 1929-1930:

	Total	In Sports	Out of Sports
Class of 1930	21	17	4
Class of 1931	18	14	4
Class of 1932	22	19	3
	61	50	11

The above figures represent the individuals taking part in the athletic activities at Franklin High School.

The following figures represent the number of boys participating in the individual sports.

Year	Sport	No. of Boys
1930	Basketball	18
1930	Track	18
1930	Baseball	16
1930	Golf	6
1930	Football	28

### Repairs and New Construction

The repairs for the year have been of the usual annual routine. The largest single item of repair expense has been the painting of the Nesmith school. The new construction has been the completion of the music room, kitchen and cafeteria begun last year, a picture of which is shown elsewhere; shower baths provided at both high and junior high; running water provided and modern toilets and a new furnace installed at the Morrison school.

### Social Activities

The school activities provided by the athletic teams, the sports, plays and drills provided by the physical training course, the dramatics, art classes, glee clubs, orchestra and band afford a variety of school activities. In my opinion one social activity is much neglected and its great value too much disregarded and minimized. I refer to school parties. This past year there have been but four altogether. I believe their value in a social way would warrant at least one

a month each by high school and junior high. A place for our boys and girls to go for a good time under proper supervision where they may learn and practice the common courtesies and civilities of life is much needed in Franklin and these parties would afford such a place.

### New Equipment

New study hall desks and chairs have been purchased for the high school and 120 folding chairs for the junior high assembly room. Two more machines have been purchased for the machine shop. Mr. Turnbull, the efficient teacher of this department, whose services we are fortunate to retain, has set up all machines in the shop. The increasing number of boys taking this course and the machines necessary to accommodate them already requires more room than we are now able to provide. It is a problem demanding early settlement if best efficiency is to be secured.

The wood working department under Mr. Harris and Mr. King's direction which has had but little new equipment this year will need considerable this next year. Good work is being done here.

The science department at the high school has been furnished much needed equipment which is being used to advantage under the direction of Mr. Betz who has aroused real interest in this department. More equipment will be needed this coming year for this work.

### Art Course

The opportunity presented itself this year of employing a teacher who could use the greater part of her time in art instruction. This was done without increasing the total number of teachers. This work is being given to junior high and grade pupils and to high school pupils especially desirous of taking the course. It is proving itself to be both popular and profitable.

### Pictures

Three pictures have been inserted in this report designed to show the citizens, not in the habit of visiting the schools, where some of the money has been expended to real educational advantage.

A glance at the machine and wood-working shop pictures will show well equipped shops which we hope you will desire to visit.

The third picture shows the new cafeteria and kitchen at the high school which was completed this year at a very moderate cost.

### Summer School

There were 93 pupils in the "Summer School". I have several times expressed myself as being doubtful of the advantages gained from the summer school except possibly to those who have lost time during the year from illness or other causes. A child, who has failed to pass a grade in 36 weeks, cannot in six weeks additional, gain sufficient help to warrant promotion. Data shows that these children almost invariably have to be assigned during the year to the slower division in a room and frequently at the end of the year are required to repeat the grade.

I recommend the discontinuance of the summer school with the exception of employing one teacher to tutor those who have lost time during the year for a legitimate reason and those whom a teacher hesitates to promote because of some one weakness, like slow reading, that six weeks of practice might strengthen.

The money formerly appropriated for this school, could better be applied toward employing an extra teacher throughout the year, whose duties would be to give individual help to children needing it in any grade. Such a teacher, I believe, could save many from repeating a grade and be far more profitable than the five or six weeks of summer school.

### Teachers

The teacher replacement this year numbered eight. The high school lost two—Virginia Glode, commercial teacher who had been here seven years and Irma Coolidge, domestic science teacher. The junior high lost four—Helen Bachelder, history and physical culture teacher, who had been here six years, Mary Craven, commercial teacher, John Buckley, history and Cecil Ileath, mechanic arts teacher.

In the elementary schools both kindergarten teachers left—Ruth Plaisted, who had been three years and Katherine Macy, one year. This was an unusually small replacement. All these teachers resigned to accept better paying positions.

The new teachers in the high school are: Margaret Croak, commercial teacher, a graduate of Boston University and Alice Foster, transferred from junior high school; in the junior high, Viola Nelson, history and arts teacher, a graduate of Plymouth Normal, Dewey Hillman, commercial teacher with work at University of Maine and Boston University, Harold Fenerty, history and boys' athletic coach, a graduate of Keene Normal, Philip King, mechanic arts teacher a graduate of Keene Normal and Doris Sanborn, domestic arts teacher, a graduate of Farmington Maine Normal. The two kindergarten vacancies were filled by Doris Ladd, a Keene Normal graduate, and Alice Rowell, a Leslie School graduate.

In November, it seemed necessary to have a teacher for a special group of sixth grade pupils and Mrs. Edwina Connor was employed.

### In General

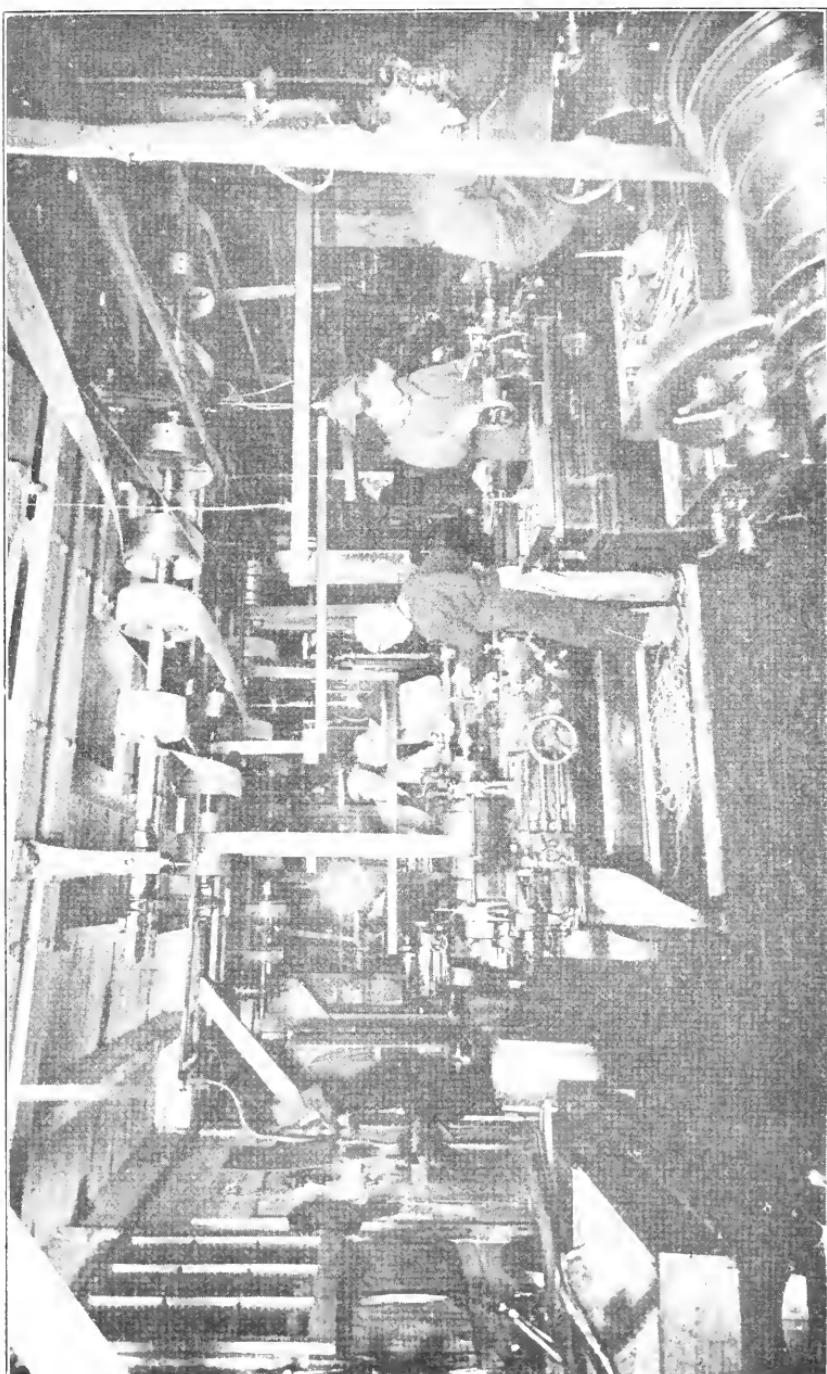

Both high school and junior high are now equipped with dressing rooms and shower baths for the athletic teams.

The Morrison school is equipped with running water and modern toilets and a new furnace.

The Golden Rule Farm school has Kaustine toilets and should be provided with a system of heating providing ventilation.

All the pupils of our schools, below high school, are having the advantages of physical instruction and health supervision.

Machine Shop Junior High School

The physical welfare of the children from the personal side and from the material side—improvements in the school plant—has been a special care of the Board this last year and a half.

The safety of the children has had attention and those being transported are more comfortably cared for than heretofore.

Fire drills are practiced in all our school buildings, once a month in warm weather and two or three times during winter months.

The morale of both teachers and pupils has been excellent this year, especially since the beginning of the Fall Term.

Progress has been made toward better teaching and that must mean better schools.

Dr. Woodman's reelection for another term of three years assures working with the same Board this year, which I am sure is pleasing to the teachers and myself.

### Finances

We have paid all bills for the year and have a balance of \$238.73 as compared with \$165.23 last year. We have expended \$81,727.78 this year, \$81,700.87 last year and \$83,192.51 in 1928. These figures for the past three years would indicate that the estimated cost of maintaining the schools under existing conditions need be about \$82,000.00.

I present the percentage cost of all expenses for this year and last:

	1929	1930
Teachers' Salaries	60.4	62.5
Maintenance of School Plant	15.0	14.1
Auxiliary Agencies (Transportation, health, etc.)	7.1	6.9
Administration	5.2	5.3
Equipment and Construction	4.9	4.9
Books and Supplies	6.3	5.7
Insurance	1.1	0.6

From statistics furnished by the State Board of Education I submit the following:

Total per pupil cost of Elementary Schools in Franklin 1929-30 was \$72.36. The median in the state was \$84.00.

The total per pupil cost in the high school in Franklin 1929-30 was \$118.87. The median in the state was \$134.65.

The current cost of education per \$1000 of equalized valuation in Franklin 1929-30 was \$7.33. There were 50 places in the state paying less and 193 paying more. The cost varies from \$3.23 in Livermore to \$22.15 in Neworth.

F. S. LIBBEY,

Superintendent.

**REPORT OF HEADMASTER OF HIGH SCHOOL**

To the Superintendent of Schools:

I herewith submit my fourth annual report as Headmaster of the Franklin Senior High School. In it is discussed the enrollment for 1930-1931, the increasing number of graduates, the class of 1930, and the location of previous graduates.

**Enrollment**

One hundred and sixty-four pupils have been admitted to the senior high school since September 8, fifteen of whom are from the surrounding towns, and whose tuition is paid by those towns, leaving a total of 149 who are residents of Franklin, nine more than the number last year. Eleven boys and girls left school from January, 1930, to September 1930, three of whom were re-admitted, and four have withdrawn since September, 1930, making the total withdrawals twelve.

Enrollment by grades, September, 1930:

	Boys	Girls	Total
Grade X	33	33	66
Grade XI	24	30	54
Grade XII	17	25	42
Specials	1	1	2
	—	—	—
	75	89	164

### Increasing Number of Graduates

Figures taken from the city reports beginning in 1894 show a steady increase in the number of pupils who complete the high school course.

Average number of graduates per year for five year periods:

Five Year Period	Average number graduated
1894-1898	10.0
1899-1903	15.0
1904-1908	15.0
1909-1913	15.2
1914-1918	22.8
1919-1923	31.6
1924-1928	36.4
*1929-1930	47.5

\* Two years only.

### The Class of 1930

Fifty-three pupils received diplomas on June 18, 1930. Eighteen of these entered college or normal school, one is doing further work in preparatory school, two entered business college, two returned for post-graduate work at high school, and five entered nurses' training schools. Eleven are employed as office and store clerks, twelve are working at various occupations in Franklin, one is unemployed, and one is receiving specialized training. The summary for the last two classes is shown in the table below.

	1930 53 Graduates	1929 42 Graduates
Entering college, or normal school	33.9	38.0
Studying in institutions other than college or normal school	20.8	4.0
Store and office	20.8	19.0
Factory and Trade	11.3	9.5
Other Employment	11.3	7.2
At home	1.8	14.2

In connection with the table given above it is interesting to note where our graduates live. The following table shows the location of 741 graduates. It does not include the last three classes, nor all of the graduates of the period mentioned.

	Classes 1878-1927
Number of Alumni located	741
Living in Franklin	35%
Living in New Hampshire elsewhere	25%
Living in New England elsewhere than N. H.	23%
Living outside of New England	17%

The facts expressed in the tables above indicate clearly that the school is an increasingly important factor in the social and economic life of our community and state. The formal education of a large percentage of our boys and girls ceases with the completion of the high school course, and the majority of these spend the remainder of their lives in this town or in its immediate vicinity, participating in its affairs and working in its industries. To better prepare them for their work and for their leisure, consequently improving its service to the community, is one of the many terest, and deserves the support of every citizen.

tasks which confronts the school. It is entitled to the in-

Respectfully submitted,

RAYMOND L. KENDALL,

January 5, 1931.

## REPORT OF THE PRINCIPAL OF THE DANIELL JUNIOR HIGH SCHOOL

To the Superintendent of Schools:

The close of the seventh year of the 6-3-3 plan finds the junior high school with its largest enrollment and a broadening of its curricula. These two factors make us feel that we are making progress toward the accomplishment of two specific aims of the junior high school movement, namely, keeping pupils in school a longer period of time and attempting by our courses of study, to give pupils adequate training in the fundamentals necessary for the vocations for which they seem best naturally adapted.

As this report goes to press December 31, 1930 these statistics show the interesting growth of the school:

Enrollment, 274; pupils from other towns, 27. Towns from which pupils come: Andover, Danbury, Hill, Northfield, Sanbornton and Salisbury. Number of teachers, including part time teachers and special teachers, 15.

It is needless to state that with such strides in the growth of the junior high school, the city's appropriation never can be any less if we in any way keep up with our increasing numbers and demands.

When school opened in September there were five new members in our teaching staff to take the places of Miss Helen Bachelder, Miss Mary G. Craven, Miss Alice Foster, Mr. John Buckley and Mr. Cecil Heath. It is very gratifying to know that teachers who leave our school usually fill very responsible positions elsewhere as in the case of the above mentioned teachers. Miss Foster received a merited promotion within our local system.

In three instances our new teachers are beginning their teaching with us and we deem it a privilege to aid in their training. We look forward to the day when salaries shall be sufficiently large to make it an object for strong teachers to remain with us a longer time.

Another need of the school has been supplied by the addition of a course in art. It will take three or four years to show the real value of a course in drawing and painting because all of our classes are beginners. However, since September several worth while projects have been completed and the interest warrants the organization of an art club early in 1931.

The interest in music is very keen. Under the efficient direction of the supervisor of music the Girls' Glee Club and the Boys' Glee Club entered the musical contest with other New Hampshire schools held last spring in Concord. Both glee clubs won first prizes. In December the Girls' Glee Club sang several selections at the meeting of the State Grange. We feel that being a part of a big enterprise is a great factor in education and so we encourage every opportunity for such contact.

We are not proud of our banking record so far as our percentage of depositors is concerned but there seems to be sufficient reason for so small a number banking regularly. Many of the boys and girls save through the Christmas Club or Vacation Club, others have to buy their own clothing while others have no means of obtaining money while the employment conditions are as they are.

This fall the boys have had regular and carefully instructed practice in football and have played several games with teams in other towns. A basketball team will soon be chosen to represent the school through this season. One good feature of this type of athletics is the fact that all the boys in school who are interested may participate thus giving a large group instruction instead of a selected few. We hope the time is not far off when both boys and girls may have inter-class athletic tournaments.

The cafeteria serves a very large group of pupils who are unable to get home for the noon day meal and effort is made to have variety in well balanced meals. Pupils may bring their lunches and supplement them with cocoa or dessert. For eighteen cents pupils may have such a meal as baked potato, creamed fish, bread and butter, ginger bread and whipped cream, and cocoa.

Again this year our Christmas activities were in the nature of a pageant, "The First Christmas" and a "White Gift" tree. Each class presented its gift of money attractively wrapped to the tree. The school voted to give an equal sum to Miss Blake, local Red Cross nurse, The Salvation Army and the New Hampshire Tuberculosis Association, and it was a pleasure to send each a check of \$9.50.

Whatever gain has been made in the development of the boys and girls has been due to the untiring efforts of the teachers, the wise guidance of the School Board, the leadership of the Superintendent of Schools, and the interest and cooperation of parents.

May I in this public manner thank every one for his part in this great work of training citizens.

Respectfully submitted,

BESSIE C. ROWELL.

---

## REPORT OF MUSIC SUPERVISOR

Superintendent Fred S. Libbey:

I herewith submit my fourteenth annual report as music supervisor of the public schools of Franklin.

To make room for the new cafeteria it was necessary to move the music room into another basement room. The present one is far pleasanter and has proved of great worth to our outside music work. At present this is being shared with the overflow of the Falls sixth grade.

The Nesmith school gave a very attractive operetta in April "Spring Glow" with about 60 children in the cast. The proceeds of this went into their school fund which is used for worthy work among pupils in that school.

The annual spring concert was held in May and a combined sixth grade chorus was added to the usual High School groups. The program was up to the usual standards.

As in previous years many outside calls for music have come to us and have been given, the most recent being music for two evenings at the State Grange Meetings held in Franklin in December.

Between twenty and thirty children are at present taking piano work and Mrs. Katharine Gilchrist is assisting in this work.

Seven members of the Senior High School orchestra went to Concord to play in the first All State High School Orchestra last May and this experience has proved of great benefit to them as well as to the director. The Boys and Girls Glee Clubs of the Junior High School entered the first State Glee Club contest and both won first prizes. The third annual festival will be held in Nashua in the spring to which we shall again hope to send groups. These music festivals are of great value to the students as well as to the supervisors, showing the type of work being done both by the small towns and the larger cities.

This fall has seen the introduction of the Harloway instrumental class. A teacher comes each week from Boston and all sorts of instruments are taught at one and the same time. I have gone into this class with an instrument and I feel that those students who do their practicing at home faithfully have a wonderful opportunity to learn to play the instrument they may choose for a very small sum of money; also it is made possible for them to buy the instrument they care to learn to play at a very reasonable price. This class should give much new material to our orchestras and band as time goes on.

Each teacher, principal, and School Board and you, Mr. Libbey, have given me all cooperation for which I am most appreciative, and in closing wish to express to all my hearty thanks.

Respectfully submitted,

ESTELLE C. WATTS,

Supervisor of Public School Music.

---

#### REPORT OF SUPERVISOR OF PENMANSHIP

Superintendent Fred S. Libbey:

We have continued during the past year our plan of daily writing lessons in the grades, with one lesson a week taught by the supervisor, and the other lessons planned by her and executed by the teachers. The Junior High seventh grade, and the Commercial Class of the ninth grade have one lesson a week.

Writing has been introduced into the Morrison School and the Golden Rule Farm School, as it was found that these pupils, coming into our city schools were handicapped by the lack of previous writing lessons. They are showing the results of the training, and it is hoped that their writing habits may be improved and the results be apparent in their work.

Last year we instituted a system of certificates for excellence in writing in the fourth, fifth and sixth grades. They were given to pupils who received the required number of credits, for note books, spelling papers, language papers, etc. These certificates proved a great incentive for better writing, and were much prized by those who received them. We are following the same plan this year.

Instruction in printing was given in the fifth and sixth grades, and some very good work was done. This should be a help in Junior High work, where considerable printing in some subjects is required.

The greatest difficulty this year has been in the unusually large number of new pupils who came into our schools from other places, many of whom had had no writing instructions. It takes a year or more to improve the writing of these pupils as we wish to do.

The most encouraging thing seems to be that more and more the writing is becoming a part of the pupils, a habit which they will not lose, and which will be a real help to them in later years.

I appreciate very much the help of the Superintendent, the cooperation of the Board of Education and the splendid efforts of the teachers.

Respectfully submitted,

HELEN P. WELCH,

Supervisor of Penmanship.

January 5, 1931.

## REPORT OF SCHOOL NURSE

Mr. Fred S. Libbey, Superintendent of Schools:

I herewith submit the annual report on health work in the schools:

### Public Schools

Weighed and measured, 883

#### Defects:

Defective Teeth .....	184
Defective Vision .....	68
Defective Hearing .....	5

Weighed and measured, 418

## Defects:

Defective Teeth .....	165
Defective Vision .....	25
Defective Speech .....	1
Enlarged Tonsils .....	17
Adenoids .....	6
Orthopedic .....	6
Skin Disease .....	5
Pediculosis .....	8
Enlarged Glands .....	2

## Corrections:

Defective Teeth .....	108
Defective Vision .....	4
Enlarged Tonsils .....	3
Adenoids .....	3
Skin Disease .....	5
Pediculosis .....	8
Orthopedic (have had treatment).....	6

Since the opening of school in September we have had three cases of diphtheria in the Nesmith school. These children did not have toxin antitoxin. Scarlet fever has been quite prevalent too, having nine cases in the Nesmith school and one in St. Mary's.

As there is no known method of preventing scarlet fever at the present time, it is the parents' duty to pay attention to any slight illness that the child may have and call a doctor. Some very serious epidemics have resulted from the so-called slight cold which passed unnoticed. However it is quite different with diphtheria. Diphtheria can be prevented and if all the parents would only cooperate with the nurse in this work, we would soon eradicate diphtheria from the schools.

Toxin antitoxin clinics have been held at the Nesmith school and at St. Mary's School. Before this report is published we will have had clinics at the Hancock and High School.

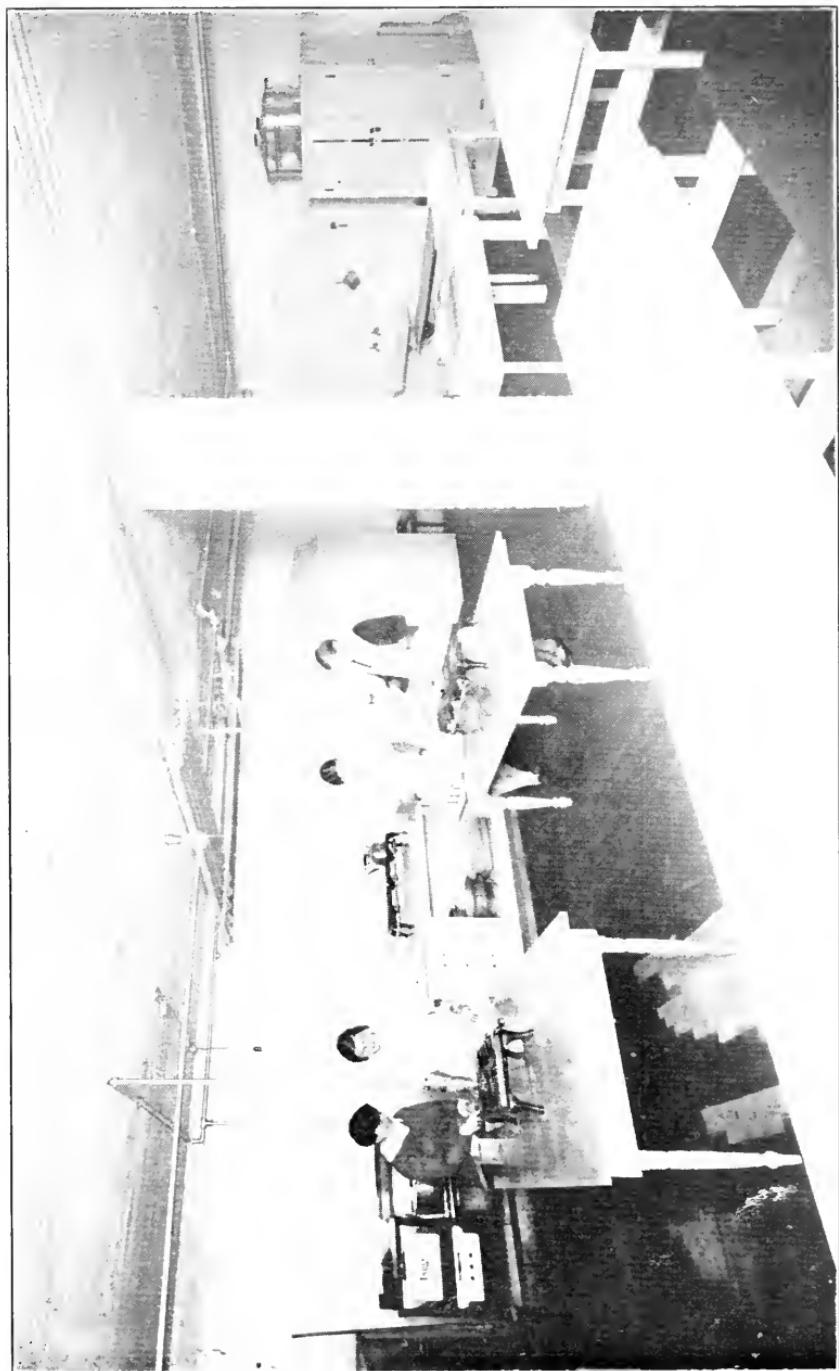

A clinic for chest examination was held in June at the Red Cross rooms. Children of the Nesmith kindergarten and some of the first grade are having milk this year as usual.

The cooperation given the nurse by you and the teachers is greatly appreciated. I wish to thank all for the same. I also wish to thank Miss Blake and the Rotary club for their aid.

Respectfully submitted,

ANNIE R. PROVOST, R. N.

Kitchen and Cafeteria High School

## SCHOLARSHIP FUNDS

---

### SANGER SCHOLARSHIP

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin; third, the student's parents must be unable without undue deprivation to pay the tuition themselves.

Be it Resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

**FRANKLIN STUDENT AID FUND**

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

---

**FRANKLIN STUDENT AID FUND**

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls, residents of this city, to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

### I. Scholarship

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

### II. Financial Needs

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

### III. General Restrictions

It is to be understood that in allotting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

## DANIELL SCHOLARSHIP

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

*Resolved by the City Council of the City of Franklin, as follows:*

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the cost of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute Scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it Resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further Resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further Resolved, That a permanent Committee on Scholarship shall be established to consist of the chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further Resolved, That this resolution shall annually be printed in the reports of said city.

Approved,

W. W. EDWARDS, Mayor.

Passed June 1, 1914.

## RESOLUTIONS

---

In the year of our Lord one thousand nine hundred and thirty.

A resolution relating to the appointment of the Standing Committees of the City Council.

*Resolved by the City Council of the City of Franklin, as follows:*

A resolution relating to hiring money.

*Resolved by the City Council of the City of Franklin, as follows:*

That the Mayor and City Treasurer, for the time being, are authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds or evidences of debt of the City becoming due, and to give promissory notes therefor.

Passed January 6, 1930.

Approved. D. E. SULLIVAN, Mayor.

---

In the year of our Lord one thousand nine hundred and thirty.

A resolution relating to the hiring of money from the State Highway Department.

*Resolved by the City Council of the City of Franklin, as follows:*

That the Mayor and City Treasurer be and are authorized to hire money from the State Highway Department to pay for one-half of the cost of the construction of the New

---

Republican Bridge known as the New Hampshire State Highway Department project No. 219-D, and any other expense incidental to the Bridge. The cost of construction to include approaches and any other expenses connected therewith wherein the City of Franklin is expected to participate.

The duration of this loan to be until the City can legally issue bonds to cover its share of the expense of above mentioned project.

Passed November 3, 1930.

Approved, D. E. SULLIVAN, *Mayor.*

Attest: GEO. S. FRENCH, *City Clerk.*

---

In the year of our Lord one thousand nine hundred and thirty.

A resolution relating to the discount in the collection of taxes.

*Resolved by the City Council of the City of Franklin, as follows:*

That in the collection of taxes the tax collector be authorized and directed to make the following discount:

Upon all property taxes paid on or before August 1, two percent, and the collector shall give notice to all persons whose poll tax remains unpaid September 1, and if same is not paid in fourteen days thereafter, twenty cents shall be added.

Passed April 7, 1930.

Approved, D. E. SULLIVAN, *Mayor.*

In the year of our Lord one thousand nine hundred and thirty.

A resolution relating to the removal of the McFadden buildings.

*Resolved by the City Council of the City of Franklin, as follows:*

Whereas, because of the necessity of the speedy removal of the McFadden building in Ward One and in order to facilitate work on the New Bridge over the Pemigewasset River, it is hereby voted that the provisions of the ordinances of the City of Franklin in relation to the removal of buildings be suspended and waived and that William S. Darling be granted a permit to move the said McFadden building from its present location to the vacant lot near No. 214 North Main Street.

Passed November 5, 1930.

Approved,

D. E. SULLIVAN, Mayor.

---

In the year of our Lord one thousand nine hundred and thirty.

A resolution relating to building a new bridge across the Pemigewasset river replacing what is known as the Republican bridge, being project No. 219-D, State Highway Department.

*Resolved by the City Council of the City of Franklin, as follows:*

That a new bridge be built according to the plans submitted by the State Highway Department. The city to pay one-half the cost of the structure and approaches plus the whole of the land damages. It being understood that this project be financed by the State until such a time as the city can legally issue bonds to cover its share of the expense.

It is hereby further resolved: That the city acquire by right of eminent domain or compromise the land and buildings known as the Adams, Nixon and McFadden property and any other land and buildings necessary to complete this project.

Passed September 6, 1930.

Approved,

D. E. SULLIVAN, *Mayor.*

In the year of our Lord one thousand nine hundred and thirty.

Respectfully submitted,

RUTH RALPH, City Auditor.

Old Republican Bridge erected in 1839.

## HISTORY OF THE OLD REPUBLICAN BRIDGE

---

On May 18, 1930, the question of building a new bridge to replace the Old Republican Bridge was first considered by the City Council.

On September 6, 1930, the City Council voted to build a new bridge, one-half of the cost of the bridge and approaches to be paid by the city together with the whole of the land damages, which included the Nixon, Adams and McFadden buildings.

It is a matter of conjecture in regard to the name of Republican being attached to the Old Covered Bridge. It is assumed that the name came from the fact there was a small settlement near the site of the present bridge, which was known as Salisbury East Village or Republican Village. There is mention made in the Boscawen town history of the Republican Bridge as early as 1796. The first record of any bridge being built was in the year 1802.

In 1800 an act of incorporation for building a bridge over the Pemigewasset at Webster Falls was obtained by Ebenezer Webster and others. They were required to build the bridge in three years, and it was completed in 1802. The following tolls were charged: person on foot, one cent; horse and rider, three cents; horse and chaise or other carriage drawn by one horse, ten cents; sleigh and horse, four cents; sleigh and more than one horse, six cents; sheep or swine, one-half cent. The toll house was on the west end of the bridge at Salisbury East Village.

On February 12, 1824, this bridge was carried away by a freshet. It was replaced at once by an old-fashioned string bridge with wooden piers, built by the Sanbornton brothers, William and John Durgin, at a cost of \$2,000.00. On

January 27, 1839, the bridge was again carried away by a freshet and was rebuilt the following summer by "Boston" John Clark, at a cost of \$7,000.00. It remained a toll bridge until 1845 when it was made free.

The contract for a new bridge to be placed just north of the Old Covered Bridge was let to the Eastern States Bridge Co., of York, Pa., and Concord, N. H. The specifications called for a structure to be made of concrete on steel girders, supported by three concrete piers and two concrete abutments, to be approximately 400 feet long and 39 feet wide and with a 30 foot roadway. It was to have a six foot walk on the south side of the bridge only. The contract called for the completion of the work in 130 days. It was commenced on September 15, 1930.

OTIS M. DAVIS,

GEORGE G. FOWLER,

GARDNER C. LONGFELLOW,

Historical Committee.
